

## SPEED STARS RACE ASSESSMENTS

Speed Stars Race Assessments are a visual representation of each horse's assigned rating using **known performance capabilities** based on unique Speed Ratings:

- Early Speed capability of each horse from the start to the 400m
- Late Speed capability of each horse over the last 400m
- Overall Speed Quality as a measure of horse class and ability

Assessments include an Early and Late Speed Chart along with an Overall Horse Assessment and rated price for comparison with the market to find profitable betting opportunities. All ratings are created using actual horse performance levels with practical forecasting of improvement and regression as directed by the data.

The Early and Late speed figures in the charts represent the base rating for each horse that we use as a starting point with bonuses and penalties applied to the overall assessment based on how each horse is currently performing. The figures are considered a guide only as there are so many factors in a race that can influence the early and late speed of each horse.

The Early and Late Speed Charts can be used throughout the day to find horses that may be advantaged if there is a bias or pattern identified at a particular track.

Each 1 rating point is equivalent to 1L and normalised across all distance ranges, this is done as 1 length is not treated equally across all distances. Shorter races will tend to yield higher ratings than longer distances as it is harder to run faster over longer distances.

The Rated Price for each horse is based on their assigned Speed Rating and should be used as a guide to compare to the market. The race assessment service means that you have all the information you need to make informed choices and can use it to invest throughout the day on races where you believe the best options are to end the day in profit.

The ratings have a simple traffic light system means that horses highlighted Green have a higher assessed chance of winning based on their assigned Speed Rating.

## BETTING OPTIONS

We provide our key speed-based information so you can use it to make your own betting decisions throughout the day, along with the information, we offer potential betting options to find a profitable edge including:

- Top 4 for each race (can be used for Quaddie selections)
- Win Betting options for Races where we feel there are betting opportunities for one or more horses
- Best Win Bet for the Meeting

## MEETING INFORMATION

### Caulfield - Saturday, 23 July 2022

<b>Rail Position:</b>	Out 6m Entire Circuit
<b>Track Condition:</b>	Soft 5
<b>Meeting Comment:</b>	Partly cloudy with possible showers late in the day, track has been assessed as likely to be a slight advantage to horses on speed.

## BETTING STRATEGY OPTIONS

Mostly **Low-Average** speed quality data races today with the main race of the day having **Good** speed data to assist with your betting decisions.

**Best Win Bet:**                   **Race 7 #2 Chain Of Lightning**  
She was best of the day at Caulfield last start and looks a very smart horse, I have marked her down due to the wide draw be she has enough ability to overcome that and be too good.

**Next Best:**                   **Race 6 #2 Pascero**  
Resumed behind a couple of smart ones and was strong over the last 200m, he should find a good position and make improvement from his first up performance.
