

SPEED STARS RACE ASSESSMENTS

Speed Stars Race Assessments are a visual representation of each horse's assigned rating using **known performance capabilities** based on unique Speed Ratings:

- Early Speed capability of each horse from the start to the 400m
- Late Speed capability of each horse over the last 400m
- Overall Speed Quality as a measure of horse class and ability

Assessments include an Early and Late Speed Chart along with an Overall Horse Assessment and rated price for comparison with the market to find profitable betting opportunities. All ratings are created using actual horse performance levels with practical forecasting of improvement and regression as directed by the data.

The Early and Late speed figures in the charts represent the base rating for each horse that we use as a starting point with bonuses and penalties applied to the overall assessment based on how each horse is currently performing. The figures are considered a guide only as there are so many factors in a race that can influence the early and late speed of each horse.

The Early and Late Speed Charts can be used throughout the day to find horses that may be advantaged if there is a bias or pattern identified at a particular track.

Each 1 rating point is equivalent to 1L and normalised across all distance ranges, this is done as 1 length is not treated equally across all distances. Shorter races will tend to yield higher ratings than longer distances as it is harder to run faster over longer distances.

The Rated Price for each horse is based on their assigned Speed Rating and should be used as a guide to compare to the market. The race assessment service means that you have all the information you need to make informed choices and can use it to invest throughout the day on races where you believe the best options are to end the day in profit.

The ratings have a simple traffic light system means that horses highlighted Green have a higher assessed chance of winning based on their assigned Speed Rating.

Lowest Assessed Horses  Highest Assessed Horses

BETTING OPTIONS

We provide our key speed-based information so you can use it to make your own betting decisions throughout the day, along with the information, we offer potential betting options to find a profitable edge including:

- Top 4 for each race (can be used for Quaddie selections)
- Win Betting options for Races where we feel there are betting opportunities for one or more horses
- Best Win Bet for the Meeting

MEETING INFORMATION

Eagle Farm - Saturday, 30 July 2022

Rail Position: +3m Entire Circuit
Track Condition: Good 4
Meeting Comment: Sunny day with 15 – 20km/h SE winds. The track has been assessed as fair.

BETTING STRATEGY OPTIONS

Should be a good day of racing with most races marked as **Average** speed data quality and a Good 4 track.

Best Win Bet: **Race 5 #10 Huss On First**
A very strong performance winning on debut ranking best of the day, she looked to have plenty in reserve and her ratings suggest she is a lot better than this field.

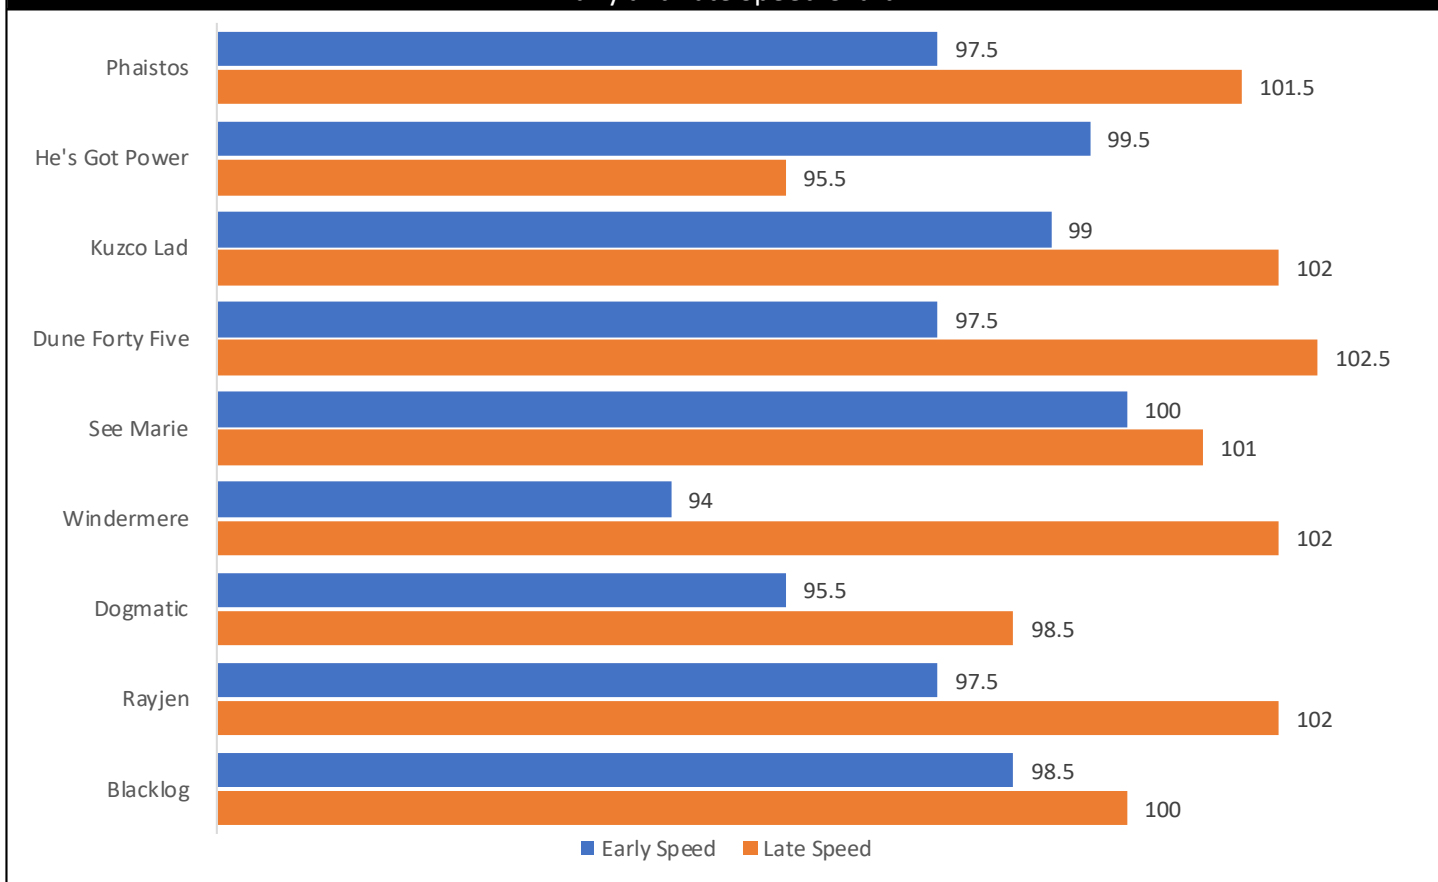

Next Best: **Race 8 #3 Tokariki Lad**
He is currently flying from a ratings perspective and his first up win at Eagle Farm ranked best of the day overall as well as best last 400/200. If he can repeat that or even improve, he will be flying home and very hard to beat if the track is playing fair.
